## EDUCATION

- **SRM Institute of Science and Technology** Chennai, Tamil Nadu  
*Bachelor of Technology - Computer Science; CGPA: 9.68* 2022 – 2026

## EXPERIENCE

- **Guidewire Software** Bengaluru, India  
*Associate Consultant Developer Intern* June 2025 – Sept 2025 & Jan 2026 – Jun 2026
  - Configured and customized **PolicyCenter (PC)** modules for an **Australia-based client (ADICA)**, implementing rule enhancements and feature updates aligned with evolving business requirements.
  - Developed and maintained **test builders and automated test cases**, strengthening regression coverage and improving overall system reliability across Agile sprints.
  - Reduced **data handling overhead by 15%** through database query optimization and automated synchronization; drove architectural improvements enhancing system **scalability and maintainability by 20%**.
- **Cellcomm Solutions** Remote  
*Software Engineer Intern* Sept 2025 – Dec 2025
  - Migrated platform storage from **JSON files** to **SQLite**, achieving **99% faster data loads (0.002s)** and implementing **automated, metadata-tracked backups** for full recovery coverage — using an open-source stack to keep infrastructure costs near zero.
- **Sakhatech Information Systems** Remote  
*Machine Learning Intern* Sept 2024 – Dec 2024
  - Enhanced **model accuracy by 18%** through end-to-end **ML pipeline development** — data preprocessing, feature engineering, and model training using **Python** and leading ML frameworks — with production-level tuning and cross-functional experimentation.

## PROJECTS

- **InferStream — Real-Time ML Feature Store and Model Serving Pipeline** [Link]  
*Tech Stack:* *Apache Kafka, PyFlink, Feast, Redis, MLflow, BentoML, Airflow, FastAPI, Evidently AI, Docker*
  - Built a **production-grade MLOps pipeline** ingesting **100 tick events/sec** across **7 symbols**, computing real-time features (**VWAP, momentum, volatility**) via **PyFlink** sliding windows with **<100ms p99 latency**.
  - Eliminated **training/serving skew** using **Feast unified feature store (Redis online + DuckDB offline)**; automated **nightly retraining** and **hourly drift detection** via **Airflow DAGs** and **Evidently AI** PSI/KS tests.
- **AI-Driven Observability and Self-Healing Platform** [Link]  
*Tech Stack:* *FastAPI, Next.js, Python, Kubernetes, Prometheus, Docker, LSTM Neural Networks*
  - Built an **AI-powered observability platform** with **LSTM-based anomaly prediction (75% accuracy)**, enabling **5-minute early incident alerts** for SRE teams.
  - Developed a fully autonomous **self-healing engine** using **Kubernetes and Prometheus** that identifies root causes and executes **automated remediation** (pod restarts, autoscaling) without human intervention.
- **TaxSmart AI – Intelligent Tax Filing Assistant** [Link]  
*Tech Stack:* *Next.js, TypeScript, FastAPI, Python, Tailwind CSS, Ollama, Llama 3.2, Clerk, Supabase*
  - Architected an end-to-end **AI-driven tax advisory platform** implementing 4 core modules — ITR selection, deduction discovery, tax computation, and error validation — with real-time, on-device inference via **Ollama + Llama 3.2**.
  - Engineered a **context-aware conversational assistant** with **7-form ITR classification logic**, automating income-source analysis and generating instant, personalized tax recommendations.

## SKILLS

- **Languages:** Python, TypeScript, JavaScript, Java, C++, C
- **Frameworks & Tools:** FastAPI, React, Next.js, Tailwind CSS, REST APIs, JWT, Postman, SoapUI, Cursor, Claude Code
- **Databases:** PostgreSQL, Supabase, SQLite, DuckDB
- **AI & MLOps:** TensorFlow, Llama 3.2, Ollama, MLflow, BentoML, Evidently AI, Machine Learning, LLM Integration, MLOps
- **DevOps & Cloud:** Docker, Kubernetes, Apache Kafka, Apache Flink, Apache Airflow, Git, GitHub Actions (CI/CD), TeamCity, Bitbucket, Prometheus, Grafana, , AWS(EC2, IAM)
- **Other:** Power BI, Tableau, Data Structures & Algorithms, OOP, System Design, Low-Level Design (LLD)

## ACHIEVEMENTS

- **Ranked 2<sup>nd</sup>** out of **1,600+** students in the Computer Science department for the 2022–23 academic year (CGPA: 9.68).
- Published research paper *"Cardiovascular Ailment Prognosis and Risk Assessment"* in the **IRAJ International Journal**.

## CERTIFICATES

- **Advanced Learning Algorithms (Coursera)** View Certificate
- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oracle)** View Certificate
